GROWTH AUDIT · OCTOBER 2026

Swansura Growth Audit

Website, SEO, Meta Ads and social media: what is holding growth back, and how we fix it in 90 days.

Prepared for Swansura – The Body Studio

EXECUTIVE SUMMARY

Swansura has the products. It is missing the growth engine.

493
products live on swansura.com

14.1
average Google position (page 2); 417 pages not indexed

0
Meta ads ever run, though the Pixel is installed

34
Instagram followers; competitors have 697K–1.8M

The fix is sequencing: make the site convert and climb to page 1 first, then switch on Meta Ads and creators.

THE OPPORTUNITY

A niche the big UK retailers ignore

Official UK partner of Deyga and Vilvah. Deyga has 1M+ Instagram followers, Vilvah 878K.

Rivals are small importers: Silkrute, Madrascart and Amazon resellers, not LOOKFANTASTIC.

Demand already exists. Swansura ranks #3 for "Deyga UK" with almost no SEO work.

Google UK, 6 Oct 2026

Search	Swansura	Ranks above
Deyga UK	#3	deyga.in, Amazon UK
Vilvah UK	Not on page 1	vilvah.com, Amazon, Silkrute, Nykaa

Winning "Vilvah UK" and product searches is the fastest organic growth available.

PART 1

Website audit

Why visitors leave without buying, and a catalogue that confuses both shoppers and Google.

Sources: Search Console, PageSpeed, Meta Ad Library, swansura.com & Claude

WEBSITE · CONVERSION

Seven conversion blockers

What we found	Why it costs sales
No star ratings shown (Judge.me unused)	Competitors show 10K–430K reviews
Empty homepage H1; generic hero	No reason to buy here, not Amazon
4 dead homepage buttons	Main paths lead nowhere
No About, FAQ or Shipping page (404)	Unknown retailer, low trust
2 images, no ingredients or how-to	Skincare buyers decide on ingredients
30 products sold out, incl. bestsellers	Dead ends, no back-in-stock alert
Email signup only in footer, no offer	No way to win back lost visitors

Sources: Search Console, PageSpeed, Meta Ad Library, swansura.com & Claude

WEBSITE · CATALOGUE

Sold as "natural skincare", stocked like a perfume shop

61%
of products are fragrance (302 of 493)

15
empty or duplicate collections, plus a live Shopify demo

170
products filed as "Generic" or "Swansura", not their brand

Worst example: the Vilvah collection lives at /collections/milk-drop-brightening-serum, described to Google as *"sample vilvah"*.

WHAT WE WILL DO · DAYS 1–30

Conversion sprint: a store ready for paid traffic

- Reviews live on every product, with automatic requests
- New hero: "Official UK partner of Deyga & Vilvah"
- Fix dead buttons; write About, FAQ, Shipping pages
- Product template: ingredients, how-to, 4–6 images
- Catalogue clean-up and Deyga and Vilvah brand stores
- Email pop-up, welcome, cart and back-in-stock flows

What Swansura gets

Every product rated, every brand easy to find, every visitor captured before they leave.

Sources: Search Console, PageSpeed, Meta Ad Library, swansura.com & Claude

RECOMMENDATION · PRODUCT PAGES

Convert more, sell more per order

Conversion (CRO)

- Star rating and review count under the title
- Trust row: official partner, authentic, returns
- Delivery time and free UK delivery over £50
- Sticky Add to Cart; Apple Pay and Shop Pay
- Tabs: ingredients, how to use, FAQ
- Back-in-stock alert, not a dead "Sold out"

Average order value (AOV)

- "Complete the ritual" bundle with a saving
- "Frequently bought together" add-ons
- Cart bar: "£12 away from free delivery"
- Under-£10 add-ons: lip balm, perfume mini
- Spend £60, get a free mini
- Gift box option on fragrance and sets

Goal: average order value of £35–50, where Meta Ads pay back on the first order.

PART 2

Google already shows Swansura 4,200 times, mostly on page 2. Moving to page 1 is the cheapest growth to unlock.

RECOMMENDATION · BRAND PAGES

Brand names bring the traffic

Shoppers search by brand. Today Deyga has no brand page (/collections/deyga is a 404), Vilvah sits under a product name, and the homepage "Shop Brand" buttons lead nowhere.

Every brand page has

- H1: "Deyga UK – Official Stockist"
- 150–200 words of story and FAQ
- Bestsellers first, then the range

Linked from

- Homepage "Shop by brand" logo strip
- Brands A–Z page in the main menu
- Every product page and blog post

Build first: Deyga, Vilvah, Tiziana Terenzi, Al Haramain, Montale, Mancera.

Skin & hair concern	dry skin, oily skin, sensitive skin, dull skin, frizzy hair
Ingredient	tea tree, vitamin C, hyaluronic acid, shea butter, hemp

META ADS · THE PLAYBOOK

Five patterns the winners share

1 · One hero offer

"Worth £665, yours for £120". Value is shown, not claimed.

2 · First-order code

Space NK's FIRST15 runs across dozens of ads.

3 · Retargeting

"Still thinking about it?" with the product they viewed.

4 · Creator ads

Unboxings run from creators' own handles.

5 · Brand co-op

"Murad with LOOKFANTASTIC": brands help fund ads.

Plus: delivery

Every ad repeats free or next-day delivery.
